

Learning Journal

Student Name: Dhruv Kamleshkumar Panchal

Course: SOEN 6841

Journal URL: [GitHub Link](#)

Week 1: January 28 to February 3

Date: February 3

Content and Reflection:

1. Key Concepts Learned:

- This week in the classroom we had presentations for our projects. I prepared on how to give a great product selling pitch. I watched some online content like shark tank for preparing the pitch.

2. Peer Interactions/Collaboration:

- I collaborated with my team for the preparation of the pitch. We collaborated on multiple occasions and had practiced a lot to deliver successful pitch.

3. Challenges Faced:

- We had faced a lot of challenges during the pitch. The team member who was supposed to be delivering the pitch, got nervous and couldn't deliver it properly because of nervousness. But the professor supported us and asked direct questions about the project which was indeed very helpful.

4. Personal Development Activities:

- From the mistakes we did, we are going to improve ourselves on various points.

Goals and Organization:

6. Goals for the Next Week:

- For the goals, our teams plan to schedule meetings for the next week and plan for the second phase of the project.

7. Overall Organization:

- Made sure the journal has clear sections for each chapter.
- Updated it regularly with thoughts and learnings from the course.
